

1982-2022  
**40**  
years  
Voluntary Commitment  
To Save the Seas

The **most thematically diverse, specialized, and synergetic program** we have ever compiled following a focused mapping of our Members' training needs.

Enhanced with new topics, and in line with the theme of 2022 World Maritime Day of IMO "New Technologies for Greener Shipping", the 2022 Program supports the green and digital transition of the maritime sector into a sustainable and decarbonized future, while maintaining safe maritime operations.

# 2022 REFRESHER TRAINING PROGRAM

HOLISTIC | EXPERIENCE-BASED | FLEXIBLE

**36** new topics

**31** webinars

**16** key themes

**180** hours

**60** instructors

**in parallel** e-labs

Development and strengthening professional skills

For 40 years, HELMEPA Maritime Training showcases a unique practice of collective wisdom that fosters voluntary sharing of knowledge, expertise, and technical know-how for the collective benefit: by and for HELMEPA's Members that have increased five-fold, reaching ~2,000 vessels (~50% of the Greek-owned fleet in terms of GRT), 240 companies and organizations in Greece and abroad, and 14,000 seafarers.

Thank you  
for your trust

In 2021 we reached the highest ever participation (3,172 seafarers with 1/3 being non-Greek and staff of 123 member-companies), in the 27 webinars (most in English) conducted by HELMEPA's certified Maritime Training Centre for Pollution Prevention, Safety at Sea and Environmental Awareness.
