</tbody>
</table>
1. Charter parties for transferring dangerous solid cargoes in bulk – aspects that require caution
   - Understanding the risk
   - The role of the parties involved
   - The relevant contracts
   - The law
   - Charter parties and clauses

2. Key requirements of the latest edition of the IMSBC Code to enhance safety and pollution prevention
   - Introduction to the IMSBC Code
   - Implementation
   - Amendment 4 - 17
   - Amendment 5 - 19

3. Safety barriers to prevent liquefaction and chemical hazards during cargo handling – a practical approach
   - Hazardous materials in bulk introduction
   - Hazards associated with the IMSBC Code listed Group A commodities
   - Hazards associated with the IMSBC Code listed Group B commodities
   - Hazards associated with the IMSBC Code listed Group C commodities

4. Bulk carrier casualties: alerting statistics, case studies and lessons learned
   - Statistics
   - Coal cargo fire case study
   - MV “Bulk Jupiter” case study
   - MV “Chesire” case study

5. Vetting inspections for bulk carriers: the path to minimum accidents?
   - Introduction to bulk carriers vetting
   - Differences between the bulk carriers and tankers
   - Latest developments
   - Bulkers management and self-assessment
